THE NEWS AT HAN FRANC SCO-FURTHER PAR

THE NEWS AT SAN FRANC SCO-FURTHER PAR TICULAUS

SAN FRANCISCO April 29.—Immediately upon receipt of the news at the office of the Southern I clife company in this city A h. Towner general manager issued too following circular with orders to the con prun't superist to to st it in a souspicaous place. It had not express cars on our westbound eviress traints, when at a point sowen teem noises east of Tuoson A. Tat 10 o'clock last high they at topped and robbed by four or 6 ve men. The Somhorn Pacific Company hereby offers a rewarf of \$1000 each for the arrest and conviction of the robbers which is in addition to like reward offered by Wells 1 args & Co's express. In addition to this we understand that the following the maths. I now information received by him General Marager Towns with the formation reference to the

conveition of persons engaged in robbing the maths.

Itom information received by him General Maracer Towne suit this forencon in reference to the shall. There were fly, shis fired from the bank by robbers into the express car after the trail had been brought to a stop. The robbers had placed the on the track and a red signal was waved to stop. When the train was brought to a standstill the engline and interest may be redered to get off the engine which they did. Then they were each given a stick of glant powder and toid that they must compet the mail agents and to green the care, of the robbers would with revolvers compet them and agents and other was nessenger to gen the care, of the robbers would with revolvers compet them to the light dynamic stands of the care. The robbers than uncoupled the locomotive corresponds of the robbers and mail cars from the train and pot on the engine and rain down the track two miles. There they stopped and took all the money they could find. The money obtained from Wells I argo & Co was about \$6.60. The robbers went away on the locomotive which they appeared to be able to run they left the engineer and from any and the passenger cars. When the robbers went away on the locomotive which they appeared to be able to run they left the engineer and from any and cars there and took the locomotive and cars back to the train and proceeded we shard. No one was injured. I have not yet he rd as to whether the mail was rilled.

Additional facts were received concrining the robbery in dispatches to Wells Fargo & Co These were that the train was bein up there miles east of Fapago, in a cut. The mail to robber a well as a well as a standing the robber of the robber of the stand and the particular and the robber and cars were found at the whisting post about a mile west of Papago. It are display shrifts and two deputy shrifts and two dead, with headight put out and air brake on. These were that the train was bein the train was contended to a first of the robbers and another party with India tr

The mail and express althis were then light one and one half minutes to get one tuder the also of being blown up with 500 pounds of being blown up with 500 pounds of the light of the ligh

FORTLAND FPIDAY APRIL 29 18-7

THE ARUSE OF WEALTH,

The marriage of a mushroom rich man's a up ter-columns of another mushm rich man's newspaper in San Francisco reom rich man's new paper in San krancisco. The wedding presents are estimated at a million of dollars. The single g it of a bracelet, necklace and earlings, presented to the br de by Mirs Leland Stanford, is estimated at not less than \$50,000. The public wedding decemonical than \$50,000. were extravagand in all their details, and were mere infinitry of the ansiocratic point of our English commiss that we pretend to despise. An ansiotracy in England, whatever its faults may be, is not merely a plutocracy, but up America hose who are the infirmities, and ignore the wirdes of English society, are never anything beta plutocracy Our American austocracy was founded by "Jim." Tiek and vulgar fellows of that kidney Botter men that Fish have made a vulgar public display of their wealth to make the groundlings grin and cheer, but the victors philosophy of life is the same with them all, the dull, vilgar materialism that prompted the Israelites to worship the golden calf while Moses was framing the finer faith that was expressed in the ten commandments.

Use of wealth for the enlargement of personal privileges and public independence of action is commendable, but there is an abuse of wealth that when publiches that when publicly wrought exercises a most dangerous and corrupt influence. Great wealth le a great moral as well as material trust, and it se fairly charged against many of the mustroom rich of America that they are responsible large-ly for the violent discontent of labor with its lot. ecause they have set an unwise and indiscreet example of barbaric extravagance. They have corrupted the social well being of the people by extravagant estentiation and footish waste of money that is represented by the Crocker wedding and kindrad displays, whose lesson to the people is that wealth is not merely a means but the chief or only end in life. The crowd catch the contagion, which spreads down from its top to its towest depths, where lark the hungry foxes of theft and the gaunt wolves of anarchy and murier. Every rascal in embryo who can read, and thousands who are not rascals in thought or deed, are injured by the spectacle of the raging thirst of the very rich for more gold. and the vulgar vanity which wickedly wastes vast sums in idle show that stands for no value-

ble object lesson of patriotism or public weal Fifty thousand dollars stands for so much power of industrial suterprise, so much opportunity for organizing charity in shape of hospitals, libraries, churches, schools, etc., that the investment of such a sum in a gift of jewels seems as great an abuse and misuse of wealth as Cleopatra was guilty of when she tossed of her pears with her wine. Fifty thousand dallars in a private gift of gems stands for nothing in the industrial world Fifty thousand dollars in the industrial world in a house means employment and wages to hundreds of people, \$50,000 in any line of business means work and wages directly or indirectly to many persons, but \$50,000 in private gome means no director indirect heip to unyhody. It is like burying \$50,000 in the earth. It pours no more blood into the industrial vaine of sociefy that is wrestling day and night for food. content rages like a wounded hon in the ranks of labor, and these reckless mushroom rich bebave as if there was no hereafter as if the cyni-cal legend, 'After Us the Deluge," was better than the "nermon on the Mount, and the Golden

A circular was not long ago sent out by n number of English clergymen to their fellow clergymen in each of the parishes of London. This curciair expressed the sound opinion that "the estentations enjoyment of wealth is of tr-self a curvator the community." self a curse to the community, inspiring, as it does and must, envy, hatre i, malice, and all up charitableness, thus leading many who do not possess it, in their desire to possess the pleasich the rich enjoy, to sacrifice those virtices which are essential to honorable manhood

These English clergymen are right Wealth cannot be greedy, rapacious and extravagant without making comparative poverty equally greedy, equally rupacious, and unscrupulous in its discontent and its furious desire to better itself by hook or by crook Wealth is the leader of volgar public opinion, and wealth would do well to remember that its security and permanent nency depend on its good behavior. The reckless abuse of riches has roused the hon of many a fearful revolution from its lair, and civiliza-tions quite as solid as our own bave suffered death for the sins of an arrogant, analogratic

If anybody asks what wealth should do in p ace of this atroclous public extravagance we answer by pointing to the example of Sir George Stephen, president of the Canadian Pacific rail-Sir Donald Smith, a director, and member of parliament from Montreal, who offer a donation of \$500,000 each improve the hospital accommodations for the sick poor of the city, and for increasing the facilities for acquiring medi cal education and providing for the training of professional nurses We point to the exprofessional nurses We point to the example of the go W landerbilds generous gift of \$40,000 to the New York free circulating library to the action of leading citizens of Chicago who have mised nearly \$1,000 for St. Lukes here the rend rolling up of great formes, and it cleans the free state of the rend rolling up of great formes, and the state of the sta is not become a march of wiff a nume, wealth squamered in extraorgane, blockhot of the Crecker wedding, who wonto wedding ery is beard from a tool tools on, is an chomes against reigion, and if wealth continues to sow the Wright his vish is likely a mother contary to respia whirliwed of sound restand revolution

H T W LEFTY CRITICISY

There has been much comment on an article recently jubicated, the noted English critic and essayst, Nathew Arnolf, in which the lit-erny style of ten (gant a Henomera is severely uttacked writer in the last number of the North America e I v was criticises Mr Arnold in turn, and shows in the critic's own writings a great many instakes of expression and style

But of course Mr Arnold is a far more able writer than Gen Grant. His trade is iterature, he is a literary artist, with studied graces of dector, and such slips as he makes are due to diction, and such sips as he makes are one to the innttention, which, at times, becomes the nailt of all facile writers. Form is studied till substance is often lost and finally there is care-lessness, even as to form. On the other hand, a man like Gen Grant attends more to the sub-Stance of his matter toan to its form ha writes Jama's in ties and ton simals know must be to a definite bathese and reshs that bathese means, even though there are occasional laches

The fact is, the greatest of authors are as sulject to this description of consider as persons who do not make letters a profession or pursoit But it is a not) criticism, that makes much of such or such mistakes. such mistakes Sulpose (ne should take this from "Macheth,"

A'll s but toys rero on and , race is dead o wine of life is drawn and the more lees off this yault to brag of

And should gravely complain that verbs and nominatives were not in accord what would be thought of such criticism. It would be easy to take the works of Edmund Barke, one of the greatest of the intellectual sons of men, and show page by page a greater number of errone-ous expressions than in the Memoirs of tennal

There is a story told, if we mistake not, in Weems's "Life of Marion, 'a book know every frontier cabin forty to fifty years ago, which may come in finely here. Tarlaton, after his defeat at the Cowpens, where he was said to have been wounded in the hand by a saber, was speaking disparagingly of his antagonist on that field, rude and vigorous Dan Morgan, in the presence of a wilty and cultivated Carolina woman. "Morgan, I hear," said lie, "is an ignorant fellow, and can't even write his own name." "That may be very true," copiled the dengitier of Caroina, "but you can testify that he knows how to make his mark." The his-"Poor Tarleton looked at his crippled fingers and lit his lips with rage

THE GRANT WANTAENT.

The 27th test was the 65 h anniversary of the birthday of Gen 4 cant. The New York legislature adjourned, and the day was celebrated by hanquete and patriotic speeches in various places throughout the country. Commander-in chief Farrehild of the G. A. R. Issued a general order March 25, 1887, in which he suggested 'that on the 27th day of April next, which will be the 65th anniversary of 'the birth of Gen. frank every post of the Grand Army of the Republic shall, at some convenient hour, assemble and, inviting their fellow citizens to meet with them, hold a feast of patriotism, and thereupon solicit and receive contributions for the mem-

While the suggestion of Commander Fairchild we presume was acted upon elsewhere through-out the country, it was not honored with general attention in Portland It may be that Garfield post was busy over the living rather than the dead that it was helding a lodge of sorrow and indignation over the garraious comrade comrades who went and itself the Telegram and enabled the Telegram to tell the town that the colored veteran cannot sit in the same new with Garfield nost in the church of the G A. R. Gyrfield post in the church of the 6 Å. R. Of course this is mere speculation, for it is just as phacelible to presume that the C. A. R. never heard of this "general order" of Gen. Fairchild, or that, having heard of it, they considered his suggestion of no consequence, and preferred to employ their time inexpensively in cursing a live traitor rather than in passing round the hat for a dead hero.

"Business before pleasure" has sound mulitary as well as ever rule of conduct. The Weekler.

as well as civic rule of conduc. The Washington monument waited a long time for completion that to Calhoun waited thirty-five years, and the Canada and the tion that to Calhoun waited thirty-five years, and the Grant monument is likely to be a very

cade locks, says The present state of the work presents a most dilapidated and forbidding aspect. After ten years of waste and incompetency, nothing better can be expected as to results.

calculation made on the ground, taking into ac-count the force now employed and the work yet to to be done, gives 187 years as the period before our great-great grandchildren will celebrate the event. This is unfortunately true, and it is just what THE ORGONIAN foresaw and foretold years ago ep complaint was made because it then said that under the methods pursued by the govern-ment with works of this kind many years must clapse, and perhaps generations would pass awny, before the river would be opened, and because it also declared that the country couldn't afford to depend on so remote a result, but me If to work out the problem of transportation for our own times through the radroads. What will uncertainty of appropriations and the habit of pidding with such undertakings even habit of pidding with such undertakings even when there s money in hand, progress is measured by periode that correspond with geologic time, and we who are anxious to see results can't bely ourselves. But hope springs eternal, for here is The Dalles papier saying "The amusing funture of the situation is that men are balding or in Indias property and talking about bolding on to Dalles property and talking about the great improvements and advance in prices when the locks are completed."

opears, of many unhappy tilusions and delu-sions. It has writed till now for Oregon to annonnce the discovery that Calhoun was aposite of screening and that his political philosophy did not lead to robell on Also that Lamur, Alexander Stephens, Jofferson Davis and the rest were Union men, and much more to the same purpose Whence it follows that there was no secession or robelllon, no Southern confesieracy and no civil war that all this has heen an unreal shadow and horrid mockers, from which the country just now gets happy deverance-thanks to Col. Dell and his Evening Hemocrat But still there remains the disquieting enspicion that the specters of Higgon may be Col. Bell and his Evening Democrat.

The scheme of the Nicaragua canal, which the most practical minds of the country now ap-prove as the best route for water communica-tion between the Guil of Mexico and the Pacific, was originally recommended by Cortex in the sixteenth century and so ably argued that the king of Spain authorized a survey to be made but with the death of Cortex the project was abandoned. England finally became impressed with the advantage of a canal across Nicaragua and sent Admiral Nelson in the last decade of the eighteenth century to make a survey and with France called Nelson home and the project was abandoned. Gen. Grant was deeply inter-ested in this scheme and was about to push a canal to construction when he was finencially

A passenger train heated by steam is now running between St Albans and White River Junction, Vt., over the very bridge where the terrible White river dessite occurred last win ter in which a large number of lives were sacrificed because car heaters were used. Had the train that was wrecked been heated as the train prevented Radway Commissioner C life of lows in a recent communication in the R ittoriFrance, enters an earnest propest against any further loss of the by the use of our heaters. He declares that there is now "no longer any excuss for this terrible slaughter."

The new bill for high license hefore the legislature of New York proposes a tax of Soll a latture of New York proposes a tax or \$50.07.a pear for the sale of all kinds of liquors in o ties of over \$60,000 inhibitants, and \$100 for wine and beer only, in cities of 160,000 but less than \$60,000 the tax is to be \$350 for all kinds of longors, and \$00 for wine and beer, and in cities there there is \$60.000 for the sale \$60.000 for the of less than 1 0.0 0 8150 and \$30. The Harld on ress than (0,00 S13) and 830. The Boltz commends the bill but says it is doubtful if a tax of less than cliffor year would prove sufficiently restricted by in the large cut esto do much good or last that the crisis post reason why the trast it is the last from it ill either of cer 1 0 t t it hal a act. Both suggestions are

Andrew gauge radical beginning a Partland and lonning in a generally southeastern direction to Fag's treek and Damascus, in Clack-amas county, thence to S.10, connecting with the Oregonan Railway, would pass through a country thickly settled which now has no outlet excepting the general wagon roads. The route greaterally a level one and the people would give the right of way and sufficient land for stations, warehouses, etc. Here is a chance to invest in a property that would return profits from the start and increase in value from to year, and at the same time to do a great pub-

Neal Dow is said to anticipate a millennial period when the sale of liquor will be punished with death, and the drifter of liquor will be imprisoned for life That, indeed, would be a model prohibitory law

DISSALISFILD WITH THE DEAN.

CAUSES OF THE TROUBLE IN THE FACULTY OF THE MADICAL COLLEGE. ULT OF THE MEDICAL COLLEGE.

A gentleman who is familiar with all the circum stances connected with the trouble which has been agitating the faculty of the medical college here, concerning which several incorrect accounts have been published g ves the following as the true "ersion of the matter"

The faculty were dissa Islaed with the action of the present dean in many particulars. Under the roles in force the faculty have the right to fill value in the roles in force the faculty have the right to fill value in their number, and it is done as follows. By a majority vote a person is appointed lecturer or one year, and then, it he stail receive a two thirds vote of recommendation, the trustees will elect him to a full professorship.

Last year a chair holip vacant it wa offered to and accepted by a physician of pood standing in his profession and having unusual clinical advantages. At a meeting, of the I coulty to fill the ya cancy the dean reported the name of the physician and stated that he not orly declined but depressed himself as opposed to the school and expressed himself as opposed to the school and expressed himself as the faculty. All of which wa absolutely false in every particular. rileniar A majorily of the faculty believing this ele t d Kelley as lecturer for me year the net on of the an was soon exposed and created preater d.

dean was soon exposed and created preader ditriest to be be a continued by the coordinate of the faculty. This year
was the question, should kelley be recommended to the constant of the faculty and the coordinate of the constant of th

nation

The action of the trustees created a great distorbance, which finally resulted in the resignation The action of the trustees created a great on torbance, which finally resulted in the resignation of the entire faculty. The proposition to resign came from one of the professors, whose resignation was not accepted, and has how the appearance of having been in the continuous section of the professors, whose resignation was not accepted, and the law the professors of the section of the professors of the section of the professors of the present dean was unfit in many ways for the place and that therefore he did not have their confidence, become—that the appointment of Dr. kelley to a professorship by the trustees without any recommendation from the faculty was thegat and ungentification from the faculty was thegat and ungentification for the faculty was the great of medical to challenge the faculty of the second of the

ession.
It is believed here that all the present trouble is rought about by the manipulation of a small ring and that the trustees do not fully understand the

and that the trustees do not fully understand the true circumstances. It is impossible to beheve that the trustees would for a moment countenance the present efforts that are being made to organize a faculty names being made to organize a faculty names being med without authority, etc. The medical gentle men who have been left out are among the best in the city, and, with their professional brethren in full sympathy with them absolutely control all the ospital chines in this city.

In justice to the deposed professors it must be talted that they are not seeking reappointment for under the present management there can be no confidence.

THE EAST SIDE

NOW IS THE TIME TO BUY!

\$50 Down, Balance, \$150, in Monthly Payments of \$15 Each, without Interest.

This beauhful tract of land, consisting of .08 lots, is cituated in the famous fruit growing district adjoining East Portland, one-half mile east of the city limits, on the extensively travoled Base Line road, also on the main line of the Mount Tubor & East Portland railway, and only five mit rotes ride from the Morrison-street bridge. This land is all level, cleared and in a high state of cultivation, with fruits and ber ries, such as apples, plums, prunes, chorries, peaches, pears, etc., together with strawherries, thackberries, and, in fact, all the fruits and ber ries for which this favored section is noted. Situated as it is, away from the malartal district, it is entirely free from all missmatic indigences, and is destined to become, with the rapidly increasing population of the two clines, what Berkeley and Alameda are to San Francisco—a place of beaulful homes. Through the completion of the Morrison effect hridge.

PARADISE SPRING FARM

Is made a delightful suburb to the city of Port land, and in less than six months passenger trains or the Mount Tabor & Last Portland Rail way Company will pass this property every half bour, thus making it possible for the merchant, the mechanic and the laborer to do business in Portland and live in the most delightful of all its suburbe. To the observing man we deem it unnecessary to enlarge or even to dwell upon the possibilities of Portland and its suburbs as compared with those of any other city, believing, as we do, that it is without a parallel in the United States. Although the city of Portland has not yet attained the average liretime of man, it ranks to day in population as the forty fifticity in the Limon is the actual terminus of three transcontinental lines, has more wealth within its boundaries and a greater area of territory at its command than any other city of America.

Portland's position as a trade and trayel conter is as thoroughly defined on the Pucific coast as that of New York on the Atlantic, and it is safe to say that within ten years it will have a population of over 100,000 Already its residence capacity is taxed, and right here the quastion arlses, Where will these newcomers seek homes? Will it be in the stifled precincts of a four story tenement, house, such as is found in the densely populated cities? Will it be on the rugged hills surroughing the city where land is already held at \$5000 a block? Or will it be on the PARADISE SPRING FARM

BEAUTHUL INBROKEN PLAIN BIATHUL UNBROWN PLAN
Extending eastward from the river, on which is
situated Faradise Spring Farin? Land on either
side of Paradise Spring Farin? Land on either
side of Paradise Spring Farin has sold as high
as \$1500 per acre, and the most inferior cannot
be bought to day for less than \$1000, and that
only in five and ten acre tracts, and yet we propose in this matter to give subscribers a chance
to secure a regular lot, hity test by one hundred
feet, at the same rates as sold per acre, besides
making them a present of a new, handsome,
modern decigned hard husbade house, all ready
for occupancy These lote, 238 in number, will
be placed on the market at the reasonable price
of \$2.00 each, one fourth of that sum to be paid
at the time of subscription and the balance in
n outbly it stallments of \$10 each without interest on deferred payments. As a further inducement to populate this beautiful section, we have
now in course of erection six handesome, modest on deferred payments. As a further tadacement to populate this boautiful section, we have now in course of erection six handsome, madern designed for and seven room houses, which are to be given away free to the purchasers of lots. Loder this arrangement six out of the 18 subscriters will secure a hand-ome house and lot, worth \$140 each, for the small sum of \$5.0 while the balance will have lots that can to be purchased anywhere in the same locality for less than \$3.00 each, and then only in acrusts—a fact that precludes the possibility of purchase at all by men of limited means. The award of the houses is to be made under the supervision of a committee of responsible and disinterested citizens, at some public hall to be agreed upon in Portland, in June, 1837. Latties at a distance can purchase under this plan of award as well as those in the city, it be mig specifically agreed on out part that everything is to be just as represented.

Reinfunces can be made to us by mail or expirate.

30 THOD OF SALE

These houses, six in number together with the orchards and other improvements, are to remain on the lots where they are at present situated and are included in the price paid for the lots (\$200 each), to these who draw the fortu

ated and are included in the price paid for the lots c>200 each), to those who draw the fortunite numbers.

In order that all buyers may have an equal chance in the drawing the following plan of award will be adopted. The name of each subscriber will be placed on one slip of paper and number of each lot, from 1 to 28, will be placed on another slip the two slips will be placed in separate boxes, and under the super vision of responsible and disinterested clitzens will be drawn simultuaneously. The number drawn will designate the lot belonging to the subscriber whose name accompanies it. Under it is plan the number as well as the numbers will be placed in the separate boxes promisencously, thereby removing any possible advantage that one subscriber might have over mother.

The plate on file in our office, as well as a visit to the premises, will show on which lots the houses are located but no one can tell who will receive the winning numbers until they have been drawn blindfolded from the box.

Each and every subscriber will receive a warranty deed to his lot, without any extra chargo whatever.

Hemember that there are eix elegant, modern-design dwellings to be given away with these lots. Price, \$200 each one-fourth down and the balance in installments of \$15 a mouth without underest.

the balance in installments of \$16 a month without interest.
On and after flay 1 we will have an elegant four horse conveyance on hand to convey prospective purchasers to and from the premises free of charge in order to accommodate those who cannot call during the day, our office will be open every eventually (accept Suniny) during the above sale, from 7 to 1 hor particulars call on or address. For particulars call on or address

A CHILD BERRITHEN DUMP

Several case since a 16 year old daughter of a
farmer ner of 16 bits. Hiving near Brooks, was
found in a fit of near the house, acting strangely
When her relatives fook her to the house it was
discovered that she could methor hear nor speak
Medical and was summoned but so for the pa
itent a condition has not bettered except that she
has been able to six also not or ty fee. I hysicians
consider it a condition has been also been to the I hysicians
consider it a condition of the beautiful and the beautiful second to the laboration.
